Grata - Sunscreens

The **Grata** range of sunscreens and grilles are designed to be aesthetically pleasing, yet economical and highly functional. Whilst blocking out the sun's rays, **Grata** adds to a modern architectural facade and can assist in managing your building's environment, and energy requirements.

Grata panels can be mounted either horizontally or vertically to achieve the desired shading solution, or level of privacy required.

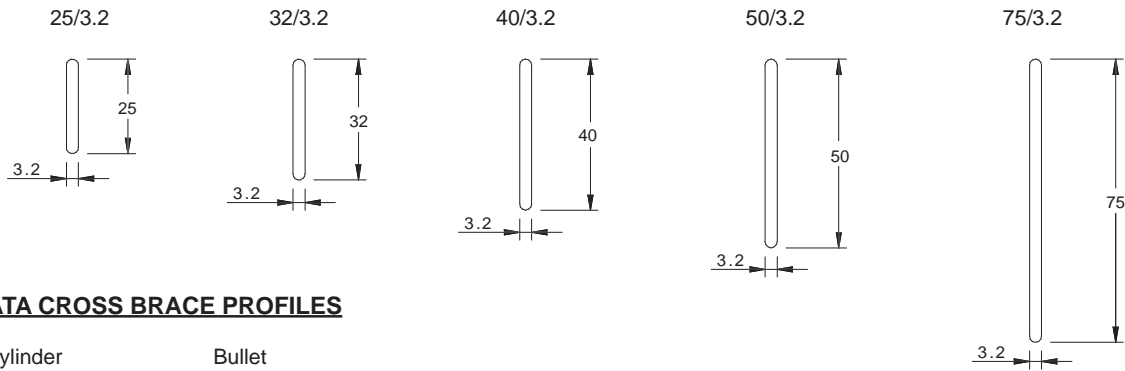

With a range of 5 blade profiles, 2 cross brace options and a variety of fixing methods, **Grata** allows you to select the combination that best suits your specific situation.

FEATURES INCLUDE:

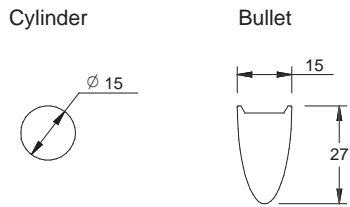

- Range of blade and cross brace profiles
- A range of fixing options available to suit your specific installation needs
- Robust aluminium construction
- Can be framed or frameless
- Range of anodised or powdercoated finishes

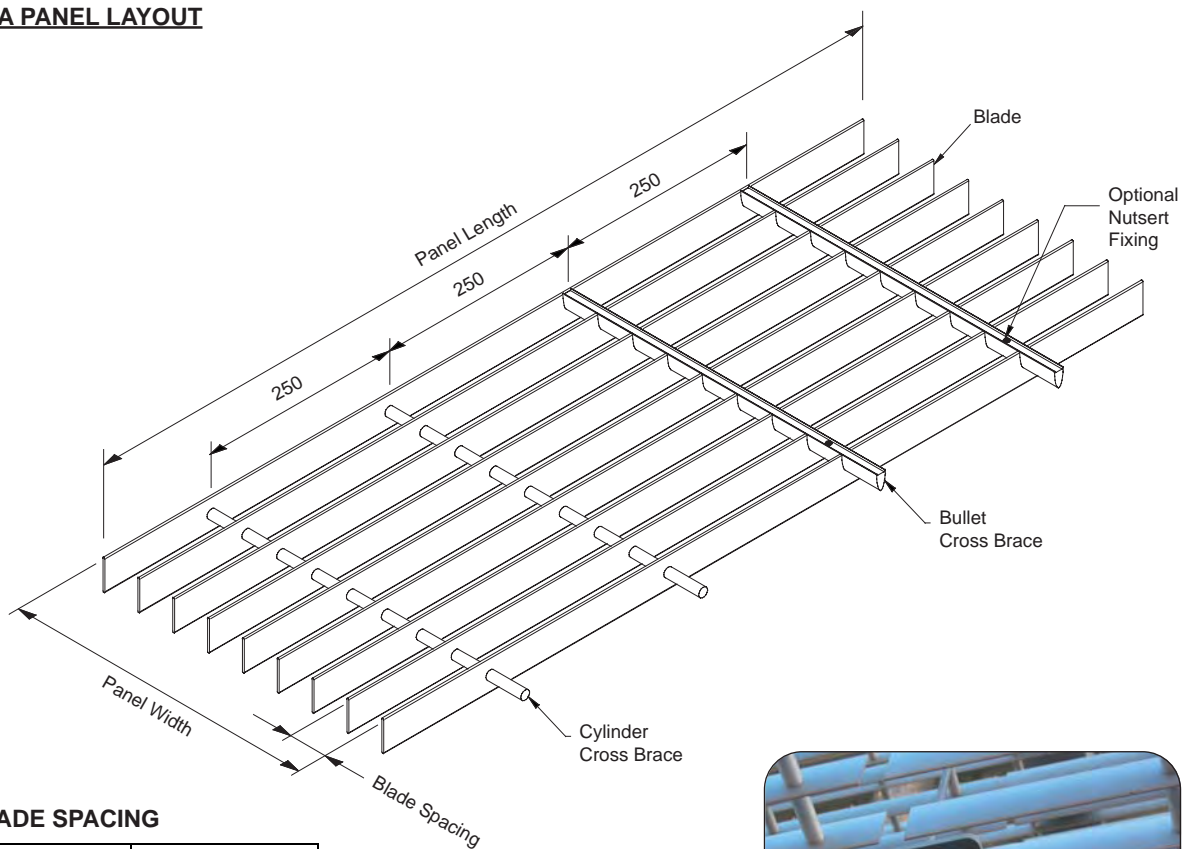

GRATA BLADE PROFILES

GRATA CROSS BRACE PROFILES

GRATA PANEL LAYOUT
